Brazilian model Natalia Garibotto had a post of her in a sexy schoolgirl outfit liked by the Pope’s own Instagram account. When Natalia was alerted to it by her over two-million followers, she boasted that her entrance into heaven is almost certainly guaranteed. It is certainly not surprising to hear that the official Papal Instagram account is run by a team of employees in the Vatican and no the Pope himself. All employees have denied liking the post and the Vatican is asking the tech giant for answers to how this could happen. I’ll tell you how it happened: straight horny men have infiltrated the Vatican. And given the current climate, that is certainly welcome news.
